

DUTY TITLE	POSITION SUMMARY	PP-SER-GRD	SPECIAL REQUIREMENTS/CRITERIA FOR POSITION	LOCATION(S) OF POSITIONS
SUPERVISORY ACQUISITION PROGRAM MANGAER	Plans, organizes, and directs the activities with responsibility for the development of major aspects of key Air Force cyber programs of national significance and/or essential operating programs. Exercises supervisory personnel management responsibilities. Directs coordinates and oversees work through subordinate supervisors. Represents the program office at high level within the organization and with contractor organizations. Develops, implements and controls contractual, financial and technical aspects of defensive cyber programs through designated phases of the acquisition cycle for which no closely related precedents exist. Makes periodic and comprehensive assessment and evaluation of program goals, and objectives which will provide a basis for long-range planning to enhance the organization's management capabilities.	GG-1101-14	TS/SCI Eligible/ Drug Test Position	Joint Base San Antonio, TX
ACQUISITION PROGRAM MANAGER	Implements program management principles on assigned projects/programs including cost estimates, schedules, and performance supportability baseline requirements by applying known methods and procedures. Plans, organizes, coordinates, and assess activities of functional specialist including contracting, engineering, manufacturing, program control, configuration/data management, test, and logistics. Reviews and directs the progress of contracts in meeting program objectives. Prepares and presents staff studies for presentation to the Program Director and other management officials.	GG-1101-12	TS/SCI Eligible/ Drug Test Position	Joint Base San Antonio, TX
ACQUISITION PROGRAM MANAGER	Responsible for developing, establishing, implementing and controlling contractual, financial, and technical aspects of a project/program through designated phases of the acquisition cycle for which no closely related precedents exist. Plans, organizes, directs, and coordinates activities of functional specialists including contracting, engineering, manufacturing, program control, configuration/data management, test and logistics. Reviews and directs the progress of contractors in meetings program objects. Represents the organization at executive levels within the Government and to contractor/industry representatives.	GG-1101-13	TS/SCI Eligible/ Drug Test Position	Joint Base San Antonio, TX
IT SPECIALIST	Plans, designs, implements and maintains IT Systems to meet the business, requirements of AFLCMC Cryptologic and Cyber Systems Division. Plans, organizes, coordinates, and manages acquisition of IT assets and prepares supporting software/hardware systems documentation as required. Performs as a senior technical advisor to functional users. Serves as technical knowledge management base in the areas of hardware, software, and communications technology. Serves as a primary or alternate contracting officer representative.	GG-2210 12	TS/SCI Eligible/ Drug Test Position	Joint Base San Antonio, TX
INFORMATION TECHNOLOGY (IT) SPECIALIST	Develops and delivers software and/or other digital services (cyber, cloud platform, data, and/or artificial intelligence) through the following execution phases: design, development, installation, test, implementation, modification, documentation and follow-on maintenance. Manages mission knowledge, information, and situational awareness processes and systems using an agile approach. Serves as Project Lead for cyberspace capability development, assessment, and fielding. Represents assigned teams and digital products with a variety of Department, Headquarters, installation and functional area organizations.	GG-2210 13	TS/SCI Eligible/ Drug Test Position	Joint Base San Antonio, TX
IT CYBERSECURITY SPECIALIST	Serves as organization's senior information security official accountable for the information security compliance of the LevelUP and the Unified Platform mission system. Leads, plans, facilitates, and executes cyber and information security strategy for software and/or other digital services through the following execution phases: Design, development, installation, test, implementation, modification, documentation and follow-on maintenance. Represents the organization to a variety of headquarters, installation and functional area organizations across the Department of Defense and the Air Force. Contributes to an organization talent strategy designed to bring together leadership and staff with the skills to deliver world class technology, cybersecurity and digital services.	GG-2210-14	TS/SCI Eligible/ Drug Test Position	Joint Base San Antonio, TX
SUPERVISORY GENERAL ENGINEER	Provide professional and scientific expertise in performance of work requiring knowledge and application of engineering, mathematics, statistical analysis, modeling/simulation, and/or other scientific principles, methods, and techniques. Performs a broad range of (specific specialty) assignments entailing unique problems, creativity, innovative use of techniques, advanced approaches, and/or new technologies. Utilizes scientific inquiry in the independent development of mathematical models and computer programs to evaluate and predict the ability to support assigned projects, studies, or problems. Provides technical guidance, advisory support, and assistance on an entire project and/or major phases for broad and varied operations.	GG-0801 13	Must have an Engineering Degree/TS/SCI Eligible/ Drug Test Position	Joint Base San Antonio, TX
COMPUTER ENGINEER / ELECTRONICS ENGINEER / OPERATIONS RESEARCH ANALYST / COMPUTER SCIENTIST	Provide professional and scientific expertise in performance of work requiring knowledge and application of engineering, mathematics, statistical analysis, modeling/simulation and or other scientific principles. Performs a board range of Crypto/Cyber or software engineering assignments entailing unique problems, creativity, innovation use of techniques advanced approaches. Utilizes scientific inquiry in the independent development of mathematical models and computer programs to evaluate and predict the ability to support assigned projects, studies, or problems. Provides technical guidance, advisory support, and assistance on an entire project and/or major phases for broad and varied operations. Attends meetings, conferences, briefing, and seminars related to program planning, advanced technologies, and support system concepts. Accomplishes professional development and maintains technical proficiency.	GG-0854-13 / GG-0855-13 / GG-1515 - 13/ GG-1550 -07 Target 13	Must have an Engineering Degree/TS/SCI Eligible/ Drug Test Position	Joint Base San Antonio, TX
COMPUTER ENGINEER / ELECTRONICS ENGINEER / OPERATIONS RESEARCH ANALYST / COMPUTER SCIENTIST	Provides a broad range of Crypto/Cyber or Software Engineering assignments entailing unique problems, creativity, innovative use of techniques, advance approaches and/or new technologies. Utilizes scientific inquiry in the independent development of mathematical models and computer programs to evaluate and predict the ability to support assigned projects, studies, or problems. Provides technical guidance, advisory support, and assistance on an entire project and/or major phases for broad and varied operations. Attends meetings, conferences, briefing, and seminars related to program planning, advanced technologies, and support system concepts. Accomplishes professional development and maintains technical proficiency.	GG-0854-13 / GG-0855-13 / GG-1515 - 13/ GG-1550-13	Must have an Engineering Degree/TS/SCI Eligible/ Drug Test Position	Joint Base San Antonio, TX

SUPERVISORY COMPUTER ENGINEER	Performs a broad range of offensive cyber operations capability analyses and/or engineering assignments entailing unique problems, creativity, innovative use of techniques, advance approaches and or new technology. Utilizes scientific inquiry in the independent development of policy, guidance, and integration initiatives to support assigned projects, studies, or problems. Provides technical guidance, advisors support, lead and assistance on projects and/or major phases for board and varied operations as a recognized expert. Accomplishes professional development and maintains technical proficiency.	GG-0854 14	Must have an Engineering Degree/TS/SCI Eligible/ Drug Test Position	Joint Base San Antonio, TX
SUPERVISORY ELECTRONICS ENGINEER	The purpose of this position is serve as supervisor to provide professional and scientific expertise in performance of work requiring knowledge and application of engineering, mathematics, statistical analysis, modeling/simulation, and/or other scientific principles, methods, and techniques. Applies multi-discipline knowledge in the planning, research, design, development, test, evaluation, integration, acquisition, dissemination, sustainment, modification, and/or exploitation of complex electronic systems to support the organization's mission objectives. Plans, organizes, and directs the Engineering activities of the Program, ensuring that the Program's systems engineering complies with legal and regulatory requirements and meets customer needs. Performs a broad range of COMSE/Cyber engineering analyses and/or engineering assignments entailing unique problems, creativity, innovative use of techniques, advance approaches and or new technology. Utilizes scientific inquiry in the independent development of policy, guidance, and integration initiatives to support assigned projects, studies, or problems.	GG-0855 14	Must have an Engineering Degree/TS/SCI Eligible/ Drug Test Position	Joint Base San Antonio, TX
SUPERVISORY CRYPTO/CYBER ENGINEER	The purpose of this position is serve as supervisor to provide professional and scientific expertise in performance of work requiring knowledge and application of engineering, mathematics, statistical analysis, modeling/simulation, and/or other scientific principles, methods, and techniques. Applies multi-discipline knowledge in the planning, research, design, development, test, evaluation, integration, acquisition, dissemination, sustainment, modification, and/or exploitation of complex electronic systems to support the organization's mission objectives. Plans, organizes, and directs the Engineering activities of the Program, ensuring that the Program's systems engineering complies with legal and regulatory requirements and meets customer needs. Performs a broad range of COMSE/Cyber engineering analyses and/or engineering assignments entailing unique problems, creativity, innovative use of techniques, advance approaches and or new technology. Utilizes scientific inquiry in the independent development of policy, guidance, and integration initiatives to support assigned projects, studies, or problems.	GG-1515 14	TS/SCI Eligible/ Drug Test Position	Joint Base San Antonio, TX
SUPERVISORY COMPUTER SCIENTIST	The purpose of this position is serve as supervisor to provide professional and scientific expertise in performance of work requiring knowledge and application of engineering, mathematics, statistical analysis, modeling/simulation, and/or other scientific principles, methods, and techniques. Applies multi-discipline knowledge in the planning, research, design, development, test, evaluation, integration, acquisition, dissemination, sustainment, modification, and/or exploitation of complex electronic systems to support the organization's mission objectives. Plans, organizes, and directs the Engineering activities of the Program, ensuring that the Program's systems engineering complies with legal and regulatory requirements and meets customer needs. Performs a broad range of COMSE/Cyber engineering analyses and/or engineering assignments entailing unique problems, creativity, innovative use of techniques, advance approaches and or new technology. Utilizes scientific inquiry in the independent development of policy, guidance, and integration initiatives to support assigned projects, studies, or problems.	GG-1550 14	TS/SCI Eligible/ Drug Test Position	Joint Base San Antonio, TX
FINANCIAL MANAGEMENT/COST ESTIMATING SPECIALIST	Responsible for planning, programming, scheduling, budgeting, evaluation of cost and schedule performance status-management reporting, reprogramming, and other financial management functions. Analyzes budgetary requirements and prepares budgets. Provides advice and guidance to program managers on the interpretation of budget policy. Translates raw requirements data submitted by program managers into comprehensive resource exhibits/narratives for timely submission in planning, programming and budgeting Systems (PPBS).	GG-0501-12	Special Sensitive Security Requirement; Drug Testing; Not remote eligible	Joint Base San Antonio, TX
FINANCIAL MANAGEMENT SPECIALIST	Exercises supervisory personnel management responsibilities. Advises and provides counsel to employees regarding policies, procedures, and directives of management. Responsible for formulating, justifying and defending position on the total assigned budget. Represents the branch with a variety of installation and functional area organization. Establishes, develops, and maintains effective working relations with leadership, functional directors, command section, and other government organizations. Serves as the financial management advisor to the Division and as a technical authority to all levels of management, contractors, and their activities.	GG-0501-13	TS/SCI Eligible/ Drug Test Position	Joint Base San Antonio, TX
SUPERVISORY FINANCIAL MANAGEMENT SPECIALIST	Unique opportunity to serves as Supervisory Financial Manager in Joint Cyber Command and Control (JCC2) Branch. JCC2 Branch has 3 programs: Joint Cyber Command and Control, Cyber Command and Control Mission Systems (C3MS) and Command and Control of the Information Environment (C2IE). JCC2 is a critical component of the USCC Joint Cyber Warfare Architecture (JCWA) and C2IE supports COCOM global campaigns as well as SECAF Operational Imperatives. These software intensive programs strive to deliver current and future full-spectrum cyber capabilities for joint and Air Force warfighters, at the speed of need! As Supervisory Financial Manager, you will lead approximately 6-8 financial analysts and be responsible for the training, coaching, and mentoring of these individuals. In addition, the position will interface with individuals at C3I&N, AFLCMC, AFMC, ACC, SAF, USCC and others. This position is responsible for planning, programming, scheduling, budgeting, execution, reprogramming and other financial management functions related to assigned programs; analyzes budgetary requirements and prepares budgets submissions supporting President's Budget; provides advice and guidance to program managers on the interpretation of budget policy and the formulation of budget requests in support of program requirements; serve as the financial management expert for multi-functional software and acquisition teams: software developers, engineers, program managers, contracting specialists and contracted experts; assist with specialized, individual cost estimates, analyses and impact studies in support of a variety of budget planning exercises and contract awards; review and analyze contractor cost and funds reports in support of pre-award and post award contract activities affecting the financial management of the assigned missions; accurately address variances between programmed and actual execution rates after meticulous analyses coordinating with program managers and/or customers; translate raw requirement data into comprehensive resource exhibits/narratives for timely submission into Planning, Programming and Budgeting System (PPBS) resource cycle; develop detailed programming.	GG-0501-13	Special Sensitive Security Requirement; Drug Testing; Not remote eligible	Joint Base San Antonio, TX

DEVELOPMENTAL OPERATIONS RESEARCH ANALYST (COST ANALYSIS)	Operations Research Analyst trainee leading through the GG-07 grade to a target position of Operations Research Analyst, GG-1515-12. The employee participates in the preparation of cost estimates, cost models, analyses, reviews and studies for weapon systems, groups of systems or broad problems relating to business decision analysis and other decision analysis projects. In a developmental capacity, works closely with senior Operations Research Analysts in using rigorous methods of logic and scientific discipline to design, develop and adapt mathematical cost models that will be used to evaluate the cost of various weapons systems and programs. In a developmental capacity, assists in performing a broad range of weapons systems cost estimating and economic analysis assignments developing methodologies for evaluating the cost effectiveness of advanced weapons systems, related equipment, and force structures. In a developmental capacity, performs a variety of cost estimating / analysis tasks for weapons system studies of limited scope and difficulty.	GG-1515-7/12	TS/SCI Eligible/ Drug Test Position	Joint Base San Antonio, TX
LOGISTICS MANAGEMENT SPECIALIST	Serves as the focal point for planning, management, and coordination of life cycle logistics support for assigned systems, programs, and equipment. Prepares, manages, monitors, evaluates, and coordinates Life Cycle Management Plan and Life Cycle verification plan implementation. Serves as the senior technical advisor on documentation requirements. Serves as the senior representative and spokesperson in communication program matters.	GG-0346-12	TS/SCI Eligible/ Drug Test Position	Joint Base San Antonio, TX
SUPERVISORY, LOGISTICS MANAGEMENT SPECIALIST	Plans, organizes, and directs the activities of Product Support Management, ensuring that logistics management complies with legal and regulatory requirements and meets customer needs. Represents AFLCMC/HNC product support manager (PSM) with a variety of installation and functional area organizations. Oversees the activities of a LCL Integrated product team (IPT) for product support execution. Exercises supervisory personnel management responsibilities.	GG-0346-13	TS/SCI Eligible/ Drug Test Position	Joint Base San Antonio, TX
CONTRACT SPECIALIST	Provide quality contracting services for our customers; translating the customer's requirements, ideas and dollars into smart business arrangements executable quality contracts and ultimately delivered systems, equipment, commodities, facilities and services in a timely and cost-effective manner. Perform pre and post award functions for procedures involving complex and non-complex contracts in support of the EDS mission to include highly specialized, new and innovative products and services. Analyzes and evaluates cost and pricing data and prepares/briefs Government positions to determine price reasonableness and realism of contractor's proposals. As lead negotiator, communicates effectively in contract negotiations and negotiates Government objectives, terms and conditions to obtain the best value for the Government.	GG-1102-12	TS/SCI Eligible/ Drug Test Position	Joint Base San Antonio, TX
Data as a Service Delivery Manager	Maintain and build on our data movement and analytics environment Design, implement, test, deploy, and maintain stable, secure, and scalable data engineering solutions and pipelines in support of data and analytics projects, including integrating new sources of data into our central data movement capability, and moving data out to applications and affiliates. Build reports and data visualizations, using data from the data warehouse and other sources. Produce scalable, replicable code and engineering solutions that help automate repetitive data management tasks. Perform one-off data manipulation/munging and analysis on a wide variety of political and organizing data. Implement and monitor best in class security measures in our data warehouse and analytics environment, with an eye towards the evolving threat landscape.	NH-2210-04		Maxwell/Gunter AFB, AL
Program Manager	Program Manager for the growing Battlefield Airborne Communication Node (BACN) weapon system fleet. Responsible for cost, schedule and performance management of projects related to the airborne payload and ground control stations. Lead a cross functional team of 10-members to meet dynamic needs related to connectivity and information exchange between aircraft and ground systems/platforms equipped with dissimilar communication devices.	GS-1101-12		HANSCOM AFB, MA
ENGINEER	Individual will be responsible evaluating proposed data center and networking architectures which utilize application based firewalls and software defined networking. The candidate will track and maintain engineering configurations and list of materials for installation and tech refresh of enterprise data center and network gateway sites.	GS-13	The candidate should possess knowledge of enterprise data center components and hardware.	HANSCOM AFB, MA
ENGINEER	proposed data center and networking architectures which utilize application	NH-03		Maxwell/Gunter AFB, AL
ENGINEER	based firewalls and software defined networking. The candidate will track	NH-03		Maxwell/Gunter AFB, AL
ENGINEER	installation and tech refresh of enterprise data center and network gateway	GS-13		HANSCOM AFB, MA
ENGINEER	sites.	GS-13		HANSCOM AFB, MA
ENGINEER	Support DAF365 and deployment of new features	GS-13	Engineering degree, exp in systems engineer / network engineering	HANSCOM AFB, MA
ENGINEER	<b>Support Wave 1 deployment and RRE transition</b>	<b>TBD</b>	<b>Engineering degree, exp in systems engineer / network engineering</b>	HANSCOM AFB, MA
ENGINEER	<b>Support Wave 1 deployment and RRE transition</b>	<b>TBD</b>	Engineering degree, exp in systems engineer / network engineering	HANSCOM AFB, MA
ENGINEER	Support Wave 1 deployment and RRE transition	TBD	Engineering degree, exp in systems engineer / network engineering	HANSCOM AFB, MA
ENGINEER	Support Wave 1 deployment and RRE transition	GS-13	Engineering degree, exp in systems engineer / network engineering	HANSCOM AFB, MA
ENGINEER	Support Wave 1 deployment and RRE transition	GS-13	Engineering degree, exp in systems engineer / network engineering	HANSCOM AFB, MA
ENGINEER	Support Wave 1 deployment and RRE transition	GS-12	Engineering degree, exp in systems engineer / network engineering	HANSCOM AFB, MA
ENGINEER	Support Wave 1 deployment and RRE transition	GS-12	Engineering degree, exp in systems engineer / network engineering	HANSCOM AFB, MA
PROGAM MANAGER	Responsible for the upgrade of the base level infrastructure at 189 bases (i.e. fiber optics, network equipment), providing redundant, high-speed and reliable wired and expanded wireless cyber network capabilities. Responsible for contract strategy development and execution in terms of cost, schedule and performance for the capability deployment	GS-13		HANSCOM AFB, MA
PROGAM MANAGER	Individual will be responsible for assisting senior program managers in the development and execution of Task Orders under an Indefinite Delivery Indefinite Quantity (IDIQ) vehicle. As a result, they will be responsible for all aspects of planning, developing, establishing, implementing, and controlling contractual, financial, and technical aspects of a project/program through designated phases of the acquisition cycle. Develops short- and long-range plans to effectively accomplish all previously listed roles and responsibilities.	GS-12		HANSCOM AFB, MA
PROGAM MANAGER	EITaaS Program Manager	NH-04	No special requirements	HANSCOM AFB, MA
PROGAM MANAGER	EITaaS Program Manager	TBD	No special requirements	HANSCOM AFB, MA
